## About TOMCAR

**TOMCAR®** is the product of 33 years of experience building high-performance off-road vehicles for military and industrial clients who demand powerful and precise machinery that gets the job done without compromising safety. Founded in 1991, **TOMCAR** has earned a reputation for excellence in performance, reliability and value. When we say our vehicles can take you “ANYWHERE AND BACK™”, it’s more than a slogan. It’s a fact based on superior technology and flawless design.

As a company, **TOMCAR** is known for our ability to meet the needs of a demanding, diverse customer base that has unique requirements. Delivering a proven product that gets it done every time is more than what we do. It’s who we are.

## Key Vehicle Characteristics

- Low Center of Gravity
- 4 Wheel Independent Suspension
- 13.5” of Suspension Travel
- Full-length Skid Plate
- Sealed Continuous Variable Transmission (CVT)
- Fully Protected Final Drive
- Completely Welded Steel Frame
- 15” of Ground Clearance

# TOUGH

## TOUGH!

Don't let its looks fool you. The **TM<sub>2</sub>** may seem like your typical off-roader, but this vehicle truly packs a punch. With its fully welded frame and armor reinforced components the **TM<sub>2</sub>** can withstand the harshest driving conditions. When you add in its ease of maintenance and fully renewable, low cost components, you can see that the **TOMCAR** is truly a durable, not disposable, vehicle. Whether moving you and your tools around a construction site, delving into mines or climbing mountains, the **TM<sub>2</sub>** doesn't back down!

# RUGGED

## RUGGED!

Uncompromising construction with room for four “real” adults, the **TM4** is built to get you and your companions **ANYWHERE AND BACK™**.

Its low center of gravity, four wheel independent suspension and four-point safety harnesses help to make the **TM4** one of the safest and easiest to drive vehicles on the market today. Don't be stopped just because the road ends. Whether you are scouting forests, patrolling borders, or surveying development sites, you'll have the confidence to go wherever your work (or play) takes you.

## Specifications

# STRONG

## STRONG!

With its 1,200 lbs payload and over 1,800 lbs towing capacity, the **TM5** is a workhorse in the truest sense of the word. Its pneumatic load compensators help maintain vehicle balance while the adjustable dual-coil hydraulic shocks provide a smooth ride. Couple that with the power of **TOMCAR's** new 1400 cc diesel engine and you'll be surprised just how much this vehicle can handle without breaking a sweat. Whatever you need to haul, wherever you need to haul it, the **TM5** is your best choice to get the job done.
